The environmental industry faces cutting-edge exposures that even proactive risk management can't always protect against. Specialized expertise is needed to keep pace with the claims that may result. OneBeacon provides superior claims service to policyholders with a designated claim group to adjust high exposure claims. Our team members are directed to make contact with policyholders within one business day of when a claim is received. We conduct timely and thorough claim investigations to provide prompt, accurate determinations of the coverage available for claims.

Please refer to the actual policies for exact coverage descriptions and limits; exclusions and deductibles may apply. Coverages are subject to policy terms and conditions and may not be available in all states.
